About Us

NUEL PETROGAS & ENERGY DEVELOPMENT CO LTD. Is a leading player in the global oil and gas industry, committed to delivering innovative energy solutions that drive progress and sustainability. we operate across many states in Nigeria, leveraging our extensive expertise to meet the world's growing energy needs with precision and integrity.

With a rich history in energy production and exploration, we have become a trusted partner in the oil and gas sector, meeting the world's growing energy demands with reliability and innovation.

Mission

Our mission is to deliver superior returns to our shareholders and value to our customers through the safe, efficient, and environmentally responsible exploration, production, refining, and distribution of oil and gas. We strive to meet the world's energy needs while committing to reducing the environmental impact of our operations.

Vision

To be the world's leading integrated energy company, shaping the future of energy by embracing sustainable practices and driving innovation across the oil and gas value chain.

CORE VALUES

Safety First:

We prioritize the safety of our employees, contractors, and communities in every aspect of our operations.

Integrity and Accountability:

Our actions are guided by honesty and transparency, ensuring that we meet our commitments to stakeholders.

Operational Excellence:

We aim for top-tier performance in all aspects of our business by continuously optimizing processes, reducing costs, and enhancing operational efficiency.

Sustainability:

We are committed to reducing our environmental footprint, advancing renewable energy initiatives, and implementing eco-friendly technologies.

Innovation:

By embracing new technologies, we enhance productivity and reduce risks, ensuring that our business stays at the forefront of the global energy sector.

Why Choose Us?

Choosing NUEL PETROGAS & ENERGY DEVELOPMENT CO LTD. means partnering with a leader in the oil and gas industry that is not only focused on delivering exceptional energy solutions but also on driving sustainability and innovation. Here's why our clients, partners, and stakeholders trust us:

Proven Industry Expertise:

With our years of experience in the energy sector, NUEL PETROGAS & ENERGY DEVELOPMENT CO LTD. Energy has built a reputation for operational excellence and industry leadership. Our deep understanding of global energy markets, coupled with our technical proficiency, ensures reliable, high-quality service across the oil and gas value chain.

Global Reach, Local Impact:

We are equipped to meet the energy needs of diverse regions, delivering tailor-made solutions that consider local economies, regulations, and environmental challenges. Despite our global footprint, we make it a priority to engage with and positively impact the communities we operate in.

Commitment to Sustainability:

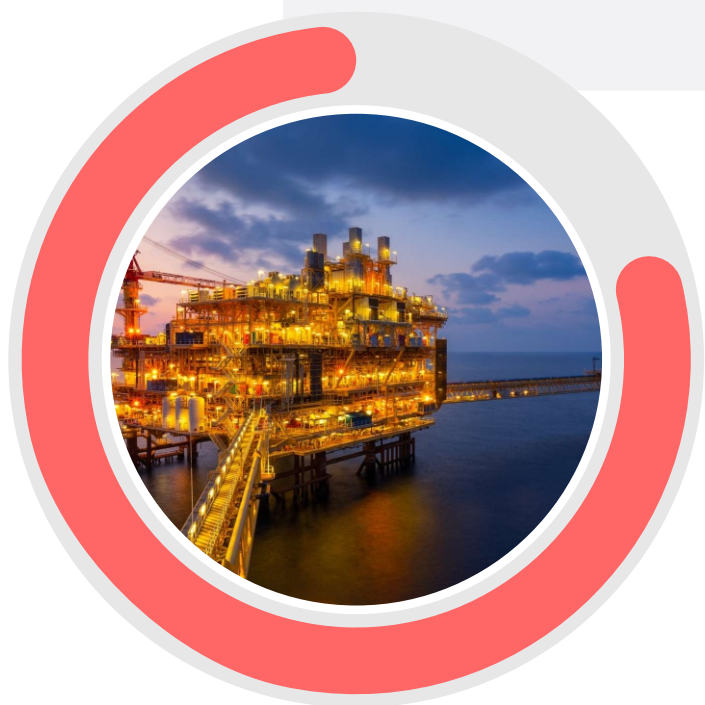

We are pioneers in leading the transition to a low-carbon future. Through substantial investments in renewable energy and carbon reduction technologies, NUEL PETROGAS & ENERGY DEVELOPMENT CO LTD. Energy is redefining the future of energy. Our commitment to reducing emissions, enhancing energy efficiency, and pursuing cleaner alternatives like wind, solar, and biofuels sets us apart as a forward-thinking energy partner.

Innovation at the Core:

NUEL PETROGAS & ENERGY DEVELOPMENT CO LTD. Energy embraces cutting-edge technologies and innovative practices to improve efficiency, enhance safety, and reduce environmental impacts. Whether it's advanced geological exploration, digital transformation in operations, or carbon capture technologies, our continuous investment in research and development ensures we remain at the forefront of industry innovation.

Our Services

- ☐ Exploration & Production.
- ☐ Refining & Processing.
- ☐ Distribution & Marketing.
- ☐ Sustainable Energy Solutions.

Exploration & Production.

We offer comprehensive Exploration & Production (E&P) services, leveraging cutting-edge technologies and industry expertise to deliver optimal energy solutions. Our E&P services are designed to meet the needs of clients seeking to explore, develop, and extract oil and natural gas resources from both conventional and unconventional reserves.

Exploration Services.

Our exploration process is driven by advanced geological analysis, geophysical surveys, and state-of-the-art technology to identify promising hydrocarbon reserves. Key components of our exploration services include:

- * Geological and Geophysical Surveys.
- * Basin Analysis & Modeling.
- * Exploration Drilling.
- * Environmental Impact Assessments.

Production Services.

Once viable reserves are identified, our production services ensure efficient extraction, processing, and delivery of oil and gas resources. Our production services include:

- * Well Design & Drilling.
- * Reservoir Management.
- * Production Facilities & Infrastructure.
- * Operational Efficiency & Safety.

Field Development Planning.

From initial discovery through the development phase, we provide a full spectrum of field development services, including:

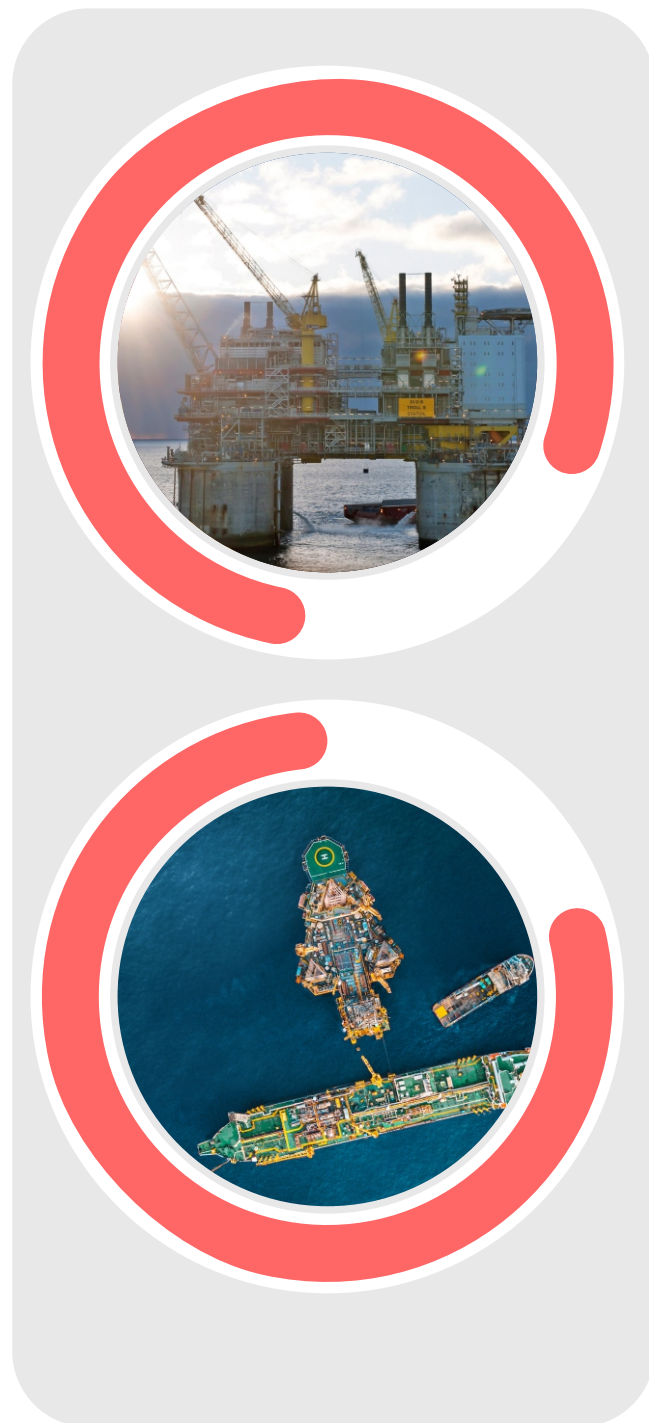

- * Project Feasibility Studies
- * Engineering & Construction
- * Integrated Asset Management

Sustainable Practices.

Sustainability is at the core of our operations. We are dedicated to minimizing the environmental impact of our activities through:

- * Emission Control.
- * Community Engagement.

At NUEL PETROGAS & ENERGY DEVELOPMENT CO LTD., we combine innovation, expertise, and responsibility to provide world-class E&P services that meet the evolving demands of the energy sector while contributing to global energy security.

Refining & Processing.

Our Refining & Processing services are designed to transform raw hydrocarbons into high-quality, market-ready fuels and petrochemical products. We ensure that crude oil and natural gas are refined and processed efficiently, maximizing output while minimizing environmental impact. Our comprehensive refining and processing capabilities support the energy supply chain from upstream exploration to downstream distribution.

Crude Oil Refining:

Our oil refining operations are aimed at converting crude oil into a variety of valuable products, including gasoline, diesel, jet fuel, and other petrochemical feedstocks. Key aspects of our crude oil refining services include:

- * Fractional Distillation.
- * Catalytic Cracking.
- * Hydrotreating & Hydrocracking.
- * Blending Operations.

Natural Gas Processing:

We offer advanced natural gas processing services that purify raw natural gas and extract valuable by-products such as liquefied petroleum gas (LPG), ethane, and natural gas liquids (NGLs). Our natural gas processing services include:

- * Gas Sweetening.
- * NGL Recovery.
- * Dehydration & Fractionation.
- * Liquefied Natural Gas (LNG) Production.

Petrochemical Processing

Beyond fuels, our refining capabilities extend to producing petrochemicals, which are essential for manufacturing a wide array of products in industries such as plastics, textiles, and pharmaceuticals. Our petrochemical processing services focus on:

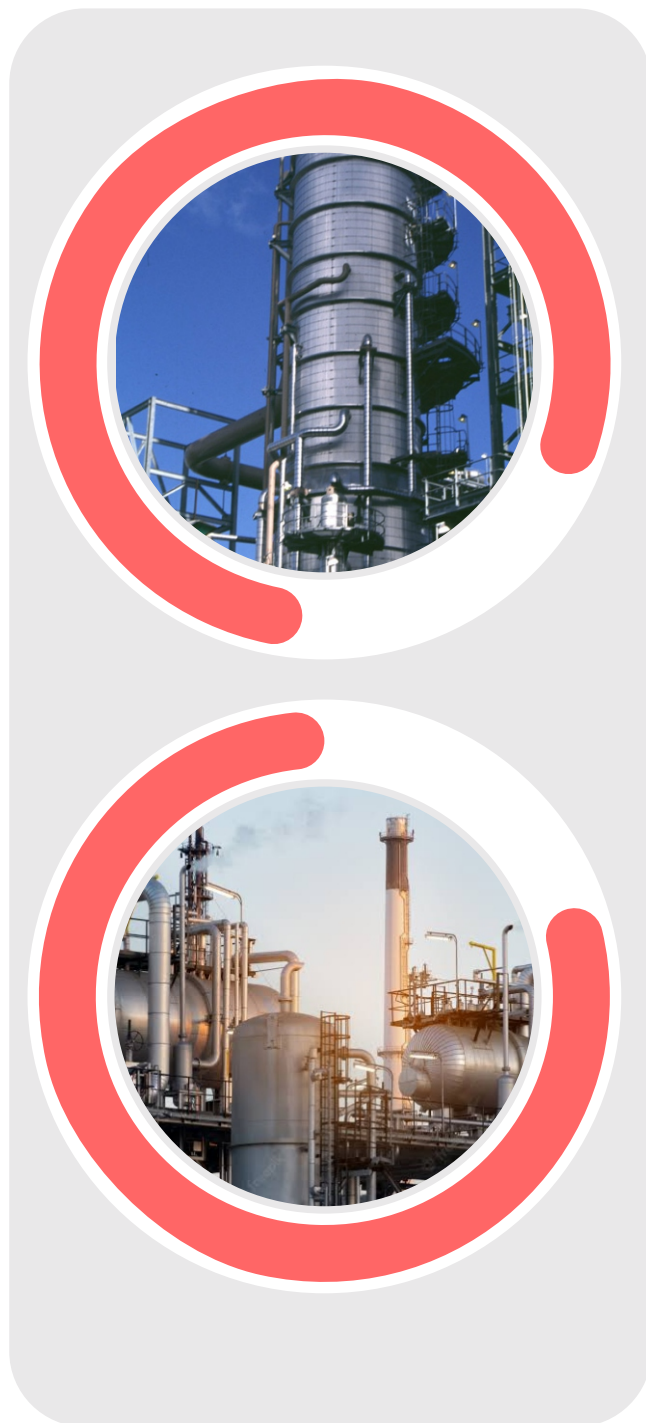

- * Ethylene & Propylene Production.
- * Aromatics Production.
- * Polymers & Plastics.

Refinery Optimization & Efficiency

We continuously strive for operational excellence in our refining and processing facilities by implementing advanced technologies and best practices. Our focus areas include:

- * Process Automation.
- * Energy Efficiency.
- * Waste Management & Emissions.
- * Sustainability & Environmental Stewardship

At NUEL PETROGAS & ENERGY DEVELOPMENT CO LTD., our Refining & Processing services are designed to meet the growing demand for cleaner, high-quality energy products while maintaining a commitment to innovation, efficiency, and sustainability. We are proud to be a reliable partner in powering industries, transportation, and economies worldwide.

Distribution & Marketing.

We ensure the efficient and reliable distribution of crude oil, natural gas, refined fuels, and petrochemical products through a well-integrated supply chain, while also providing tailored marketing solutions to meet the demands of diverse markets. Our strategic approach maximizes product reach, optimizes delivery, and enhances customer satisfaction, making us a trusted partner in the global energy industry.

Distribution Services

Our distribution services are designed to provide seamless, safe, and efficient transport of energy products from production sites to end consumers. We utilize a combination of transportation modes and infrastructure to ensure timely delivery, including pipelines, shipping vessels, and road transportation. Key components of our distribution services include:

- * Pipeline Networks.
- * Marine Shipping.
- * Storage Facilities.
- * Logistics & Transportation.
- * Supply Chain Optimization.

Marketing Services

Our marketing services ensure that our energy products are effectively positioned in the global marketplace, meeting the evolving demands of industries, governments, and consumers. We tailor our marketing strategies to match the specific needs of different regions and customer segments. Our marketing services include:

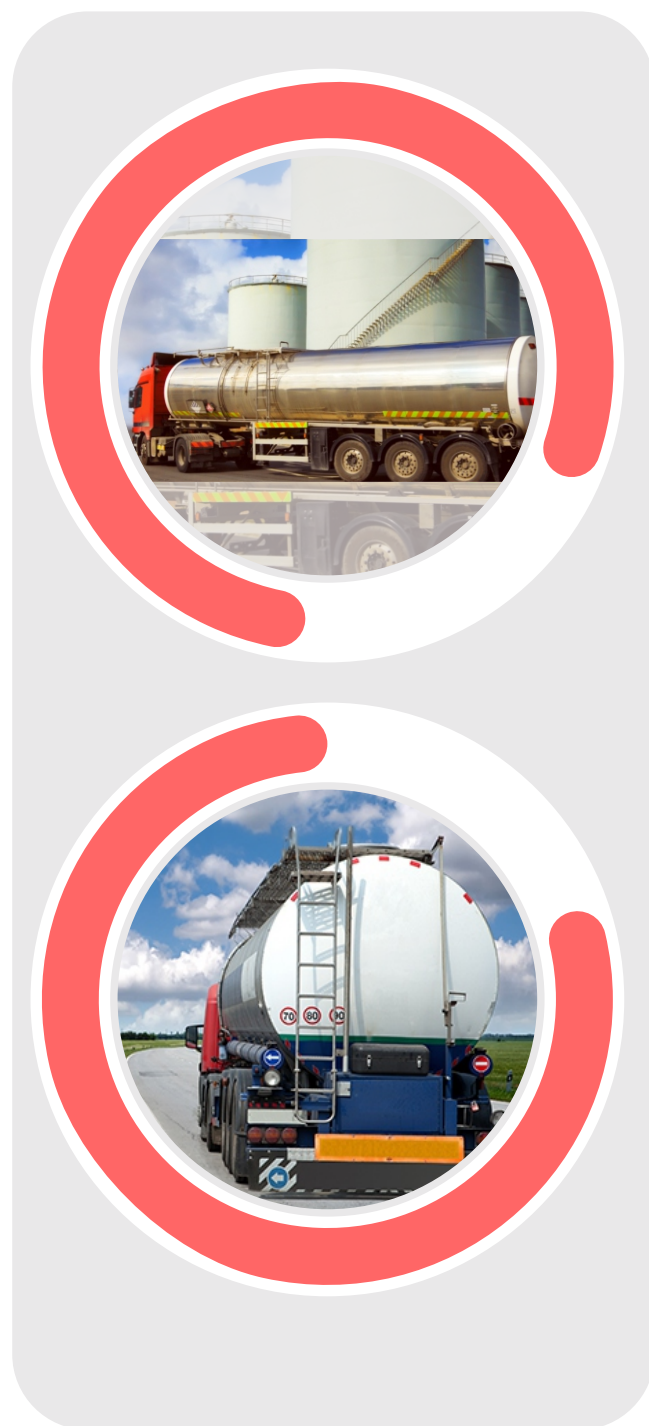

- * Product Customization.
- * Market Research & Intelligence.
- * Sales & Distribution Networks.
- * Strategic Partnerships.
- * Brand Development & Communication.

Retail Distribution & Fuel Stations.

We are also involved in the retail distribution of refined fuels through a network of fuel stations, offering consumers easy access to high-quality gasoline, diesel, and other petroleum products. Key aspects of our retail distribution services include:

- * Fuel Stations.
- * Fuel Quality Assurance.
- * Customer Loyalty Programs.
- * Alternative Fuels.

By providing an integrated suite of Distribution & Marketing services, NUEL PETROGAS & ENERGY DEVELOPMENT CO LTD. ensures that energy products reach their destinations efficiently, safely, and sustainably. Our strategic approach to marketing helps us align with customer needs, while our robust distribution networks support the growing demand for energy across the globe.

Sustainable Energy Solutions.

Our commitment to Sustainable Energy Solutions reflects our dedication to creating a cleaner, more efficient energy future. We integrate sustainability into every aspect of our operations, from exploration and production to refining, distribution, and beyond. Our focus is on minimizing environmental impact, advancing renewable energy technologies, and promoting energy efficiency across the globe.

Renewable Energy Integration

We are actively involved in integrating renewable energy sources into our energy portfolio, enhancing sustainability and reducing reliance on fossil fuels. Our renewable energy initiatives include:

- * Solar Energy.
- * Wind Energy.
- * Bioenergy.
- * Hydropower.

Energy Efficiency & Conservation

Enhancing energy efficiency is central to our strategy for reducing environmental impact and operational costs. Our energy efficiency initiatives include:

- * Advanced Technologies.
- * Process Optimization

Carbon Management & Emission Reduction

We are committed to reducing our carbon footprint and minimizing greenhouse gas emissions across our operations. Our carbon management strategies include:

- * Carbon Capture & Storage (CCS).
- * Emission Reduction Projects.
- * Carbon Offsetting.

Sustainable Resource Management

Responsible management of natural resources is fundamental to our approach to sustainability. Our resource management practices include:

- * Water Conservation.
- * Waste Management.
- * Resource Efficiency.

Innovation & Research

We invest in research and development to advance sustainable energy technologies and solutions. Our innovation efforts include:

- * Clean Energy Technologies.
- * Sustainability Research.

At NUEL PETROGAS & ENERGY DEVELOPMENT CO LTD., our Sustainable Energy Solutions are designed to address the challenges of a rapidly changing energy landscape. By integrating renewable energy, enhancing efficiency, and fostering responsible resource management, we aim to
