# SECURITY

## Consultancy

We provide expert advice and services to help organizations protect their assets, including people, property, and information.

We help organizations create a secure environment, reduce risks, and respond effectively to security challenges.

Here are some of the key activities our Security Consultancy typically undertakes.

Risk Assessment: Identifying and evaluating potential security threats and vulnerabilities within an organization or its operations.

Security Audits: Conducting thorough reviews of existing security measures to assess their effectiveness and identify areas for improvement.

Employee Training and Awareness: Providing training programs to ensure employees are aware of security policies and know how to respond to security threats.

Security Vendor Management: Evaluating and managing relationships with third-party security providers to ensure they meet the organization's standards and requirements.

Technology Integration: Recommending and implementing advanced security technologies, such as surveillance systems, access control systems, and cybersecurity solutions.

# GUARD SERVICES

Our guard services are designed to provide a visible and effective security presence which are tailored to meet your specific needs.

Here are some of the key activities our Guard Services.

**Uniformed Security Guards:** Our trained and professional security guards offer a strong visual deterrent to potential threats. They are skilled in observing and reporting, ensuring the safety of your premises and people.

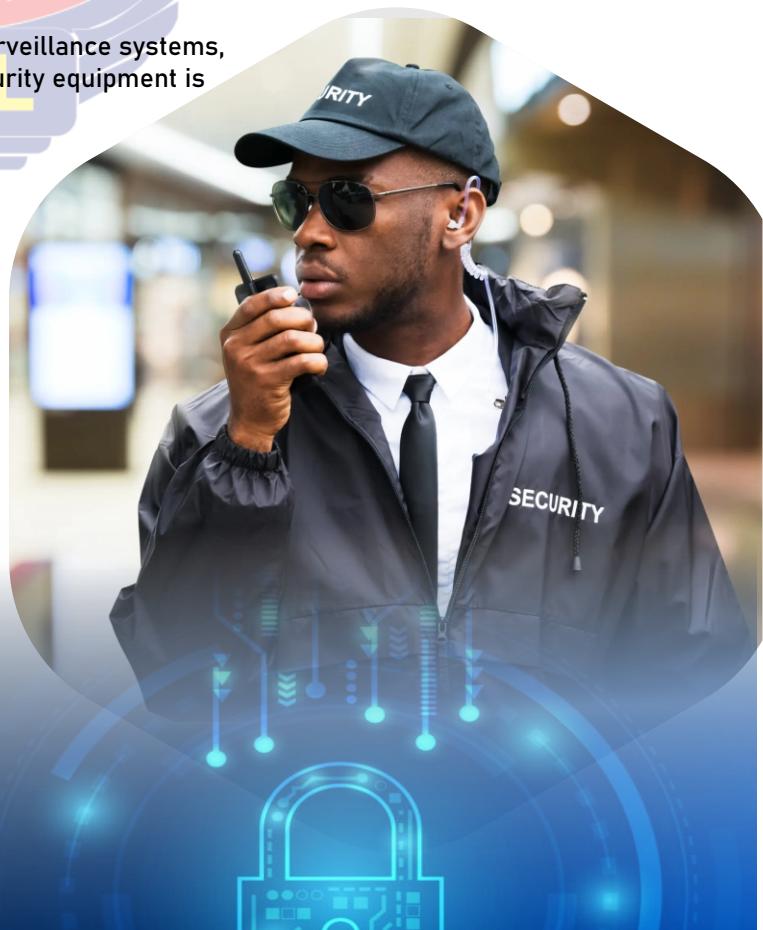

**Access Control:** Guards manage entry and exit points, verifying credentials, and ensuring only authorized personnel gain access to your facility.

**Patrol Services:** Regular patrols of your property, both on foot and via vehicle, help to detect and deter any suspicious activities. These patrols can be scheduled or random, depending on your security needs.

**Event Security:** Providing security for events, including crowd control, monitoring entry points, and ensuring the safety of attendees.

**Emergency Response:** Our guards are trained to respond quickly and effectively to emergencies, including medical incidents, fires, and security breaches. They are equipped to handle a wide range of situations, ensuring minimal disruption and maximum safety.

**Surveillance and Monitoring:** Guards monitor surveillance systems, conduct regular checks, and ensure that all security equipment is functioning correctly.

# ESCORT SERVICES

Our Escort Services are designed to ensure the safety, comfort, and peace of mind of our clients, whether they are high-profile individuals, business executives, or anyone in need of professional protection.

At Corpland International Limited, our elite Escort Security Team is dedicated to providing unparalleled protection and peace of mind as you travel.

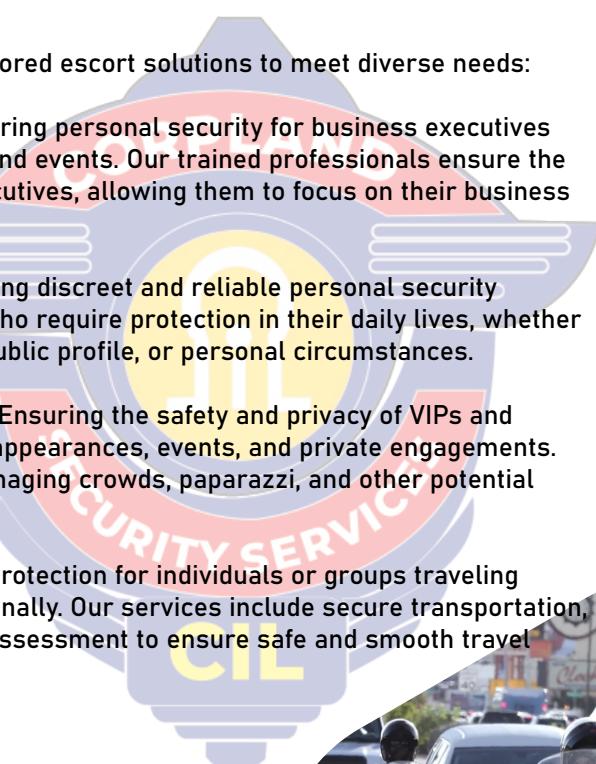

We provide a range of tailored escort solutions to meet diverse needs:

**Executive Protection:** Offering personal security for business executives during travel, meetings, and events. Our trained professionals ensure the safety and privacy of executives, allowing them to focus on their business activities.

**Personal Security:** Providing discreet and reliable personal security services for individuals who require protection in their daily lives, whether due to their profession, public profile, or personal circumstances.

**VIP and Celebrity Escort:** Ensuring the safety and privacy of VIPs and celebrities during public appearances, events, and private engagements. Our team is skilled in managing crowds, paparazzi, and other potential threats.

**Travel Security:** Offering protection for individuals or groups traveling domestically or internationally. Our services include secure transportation, route planning, and risk assessment to ensure safe and smooth travel experiences.

# HARDWARE SYSTEM SOLUTIONS

Our Hardware Systems Solutions are designed to provide comprehensive and reliable support for all your hardware needs.

We offer a wide range of services and products to meet the diverse needs of our clients:

**Hardware Procurement:** We assist in sourcing and acquiring the right hardware components and systems for your business. Our partnerships with leading manufacturers ensure you get high-quality products at competitive prices.

**Installation and Configuration:** Our experts handle the installation and configuration of hardware systems, ensuring they are set up correctly and integrated seamlessly into your existing infrastructure.

**Maintenance and Support:** We offer ongoing maintenance and support services to keep your hardware systems running at peak performance. Our proactive approach helps to identify and address potential issues before they become critical.

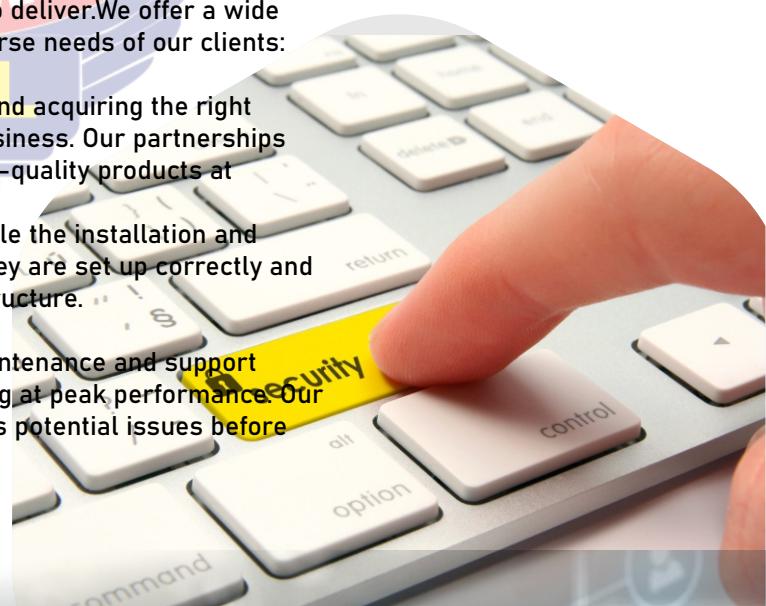

**System Upgrade:** Stay ahead of technological advancements with our system upgrade services. We help you upgrade your hardware to the latest standards, ensuring improved performance, security, and compatibility.

**Custom Solutions:** We design and implement custom hardware solutions tailored to your specific business needs. Whether it's a unique setup or a specialized application, we have the expertise to deliver. We offer a wide range of services and products to meet the diverse needs of our clients:

**Hardware Procurement:** We assist in sourcing and acquiring the right hardware components and systems for your business. Our partnerships with leading manufacturers ensure you get high-quality products at competitive prices.

**Installation and Configuration:** Our experts handle the installation and configuration of hardware systems, ensuring they are set up correctly and integrated seamlessly into your existing infrastructure.

**Maintenance and Support:** We offer ongoing maintenance and support services to keep your hardware systems running at peak performance. Our proactive approach helps to identify and address potential issues before they become critical.

# SECURITY TRAINING

At Corpland International Limited, we provide comprehensive security training programs designed to equip our guards with the knowledge and skills needed to maintain a safe and secure environment.

Our training services include:

**Foundational Knowledge:** Equip our guards with the core principles of security, including effective surveillance techniques, accurate threat identification, and prompt emergency response protocols.

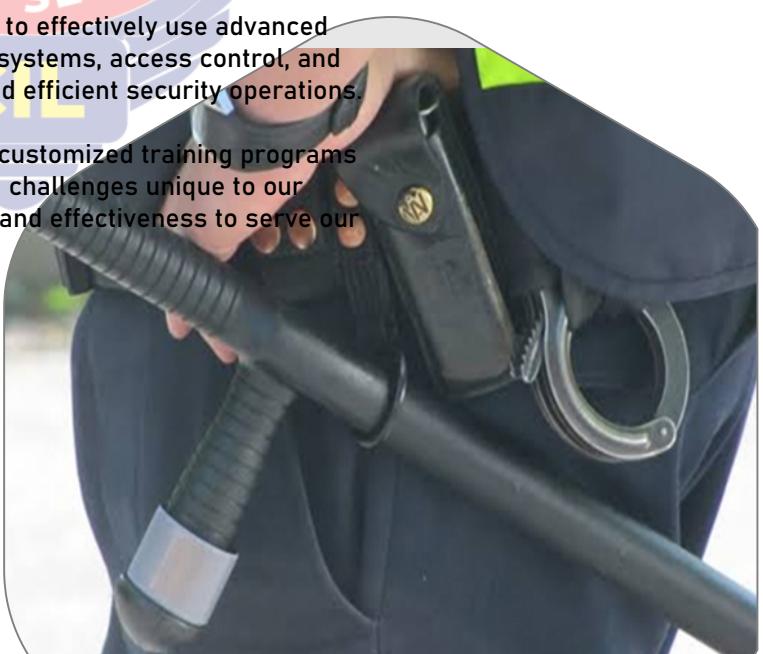

**Advanced Skills Development:** Enhance our guards' capabilities with advanced tactics such as defensive driving, personal protection, and conflict resolution strategies to manage high-risk situations with confidence.

**Emergency Preparedness:** We prepare our guards to handle a variety of emergency situations, including natural disasters, fire incidents, and security breaches, ensuring swift and effective response to protect lives and property.

**Medical Response Training:** We provide our guards with essential first aid and CPR skills, enabling them to offer immediate care and potentially save lives in emergency situations.

**Technology Proficiency:** We Train our guards to effectively use advanced security technologies, such as surveillance systems, access control, and communication tools, ensuring seamless and efficient security operations.

**Tailored Training Solutions:** We developed a customized training programs that address the specific security needs and challenges unique to our organization, ensuring maximum relevance and effectiveness to serve our clients well.

# PATROL SURVEILLANCE SERVICE

Patrol and Surveillance Services at Corpland Security Limited are designed to provide comprehensive protection for businesses, properties, and communities through proactive monitoring and immediate response.

We offer top-tier patrol and surveillance services which includes:

**Mobile Patrols:** Our security officers conduct regular and random patrols in marked vehicles to deter criminal activities and ensure a visible security presence. This service is ideal for large properties, business complexes, and residential areas.

**Random and Scheduled Patrols:** We offer both random and scheduled patrols to keep potential wrongdoers off balance. Random patrols provide an unpredictable security presence, while scheduled patrols ensure regular coverage.

**CCTV Monitoring:** Continuous monitoring of your property through closed-circuit television (CCTV) systems. Our surveillance operators are trained to detect and respond to suspicious activities in real-time.

**Surveillance:** Utilizing advanced technology to monitor your property remotely. This service includes real-time video feeds, motion detection alerts, and video analytics to enhance security.

**Alarm Response:** Our patrol units are equipped to respond promptly to alarm activations. They conduct thorough inspections and take appropriate actions, coordinating with law enforcement if necessary.

**Perimeter Security:** Regular checks of the perimeter and entry points of your property to ensure gates, fences, and barriers are secure and in good condition.

**Event Patrols:** Providing dedicated patrols during events to manage crowd control, monitor entry points, and ensure the safety of attendees.

**Live Surveillance Patrols:** Combining physical patrols with live surveillance feeds to provide a comprehensive security solution. Patrol officers can be guided by surveillance operators to areas requiring immediate attention.

# SOLAR INVERTER INSTALLATION

We specialize in delivering top-quality solar panels and inverter systems installation.

We provide our clients with:

**Custom Solar Solutions:** Tailored solar panel and inverter system designs that meet your unique energy needs and optimize efficiency.

**Professional Installation:** Expert installation by our skilled technicians, ensuring a seamless and reliable setup.

**High-Quality Products:** Use of the latest and most efficient solar panels and inverters, sourced from leading manufacturers.

**Comprehensive Support:** End-to-end service, from initial consultation and design to installation and maintenance, ensuring your system operates at peak performance.

**Sustainable Energy Savings:** Helping you reduce energy costs and your carbon footprint with clean, renewable solar energy.

**Transparent Communication:** Clear and honest communication throughout the process, keeping you informed and involved at every step.

We stand by the quality of our work and products. Our installations come with robust warranties, and we offer ongoing support to ensure your solar system continues to perform optimally.

# PROCUREMENT

Our procurement function plays a crucial role in ensuring the organization has the necessary resources to operate efficiently and effectively.

Our effective vendor management skills ensures that the company partners with reliable suppliers, maintains good relationships, and receives high-quality goods and services at competitive prices.

Here are some key roles and responsibilities we offer:

**Sourcing and Purchasing Equipment:**

**Security Systems and Hardware:** Procurement is responsible for sourcing and purchasing security systems such as CCTV cameras, alarms, access control systems, and other security-related hardware.

**Uniforms and Protective Gear:** Ensuring security personnel are properly equipped with uniforms, bulletproof vests, helmets, and other protective gear.

**Vendor Management:**

**Identifying Reliable Suppliers:** Finding and establishing relationships with reliable suppliers who can provide high-quality products and services.

**Negotiating Contracts:** Negotiating favorable terms and conditions with suppliers to ensure cost-effectiveness and quality.

**Performance Monitoring:** Regularly assessing supplier performance to ensure they meet the company's standards and requirements.

**Cost Management:**

**Budgeting:** Managing and optimizing the procurement budget to ensure cost-effective purchasing decisions.

**Cost Analysis:** Conducting cost analyses to identify areas where the company can save money without compromising on quality.

**Compliance and Risk Management:**

**Regulatory Compliance:** Ensuring all procured goods and services comply with relevant regulations and standards.

**Risk Mitigation:** Identifying and mitigating risks associated with procurement, such as supply chain disruptions or vendor reliability issues.

# ELECTRONIC SECURITY EQUIPMENT

We offer advanced, technology-driven solutions to enhance the safety and security of your property. Our state-of-the-art equipment is designed to provide comprehensive monitoring, access control, and threat detection to ensure maximum protection.

Here are some key roles and responsibilities we offer.

## CCTV Surveillance Systems

We provide high-definition Closed Circuit Television (CCTV) systems that offer continuous monitoring of your premises. Our cameras are equipped with night vision, motion detection, and recording capabilities, allowing for 24/7 real-time surveillance.

## Access Control Systems

Control who enters and exits your facility with advanced access control solutions. From keycard and biometric entry systems to remote door monitoring, our technology ensures only authorized personnel can gain access to sensitive areas.

## Intrusion Detection Systems

Our sophisticated alarm systems are designed to detect and alert you to any unauthorized entry. With integrated motion sensors, glass-break detectors, and perimeter protection, your property remains secure at all times.

## Fire Alarm Systems

In addition to physical security, we install and maintain fire alarm systems that provide early detection of smoke or fire hazards. These systems are linked to local fire services for immediate response in case of an emergency.

## Video Analytics

Enhance your surveillance system with intelligent video analytics. These systems use AI technology to identify and alert you to unusual behavior such as loitering, unauthorized access, or other potential security breaches.

## Intercom Systems

Our intercom systems allow for clear, two-way communication at entry points, improving your ability to verify visitors and manage access to your facility safely.

## Remote Monitoring

With our remote monitoring solutions, you can keep an eye on your property from anywhere. Our systems allow you to view live footage and receive real-time alerts through a mobile app or web portal, giving you control even when you're off-site.

# BODY GUARD SERVICES

We offer personalized and professional protection for individuals who require enhanced security. Our bodyguards are highly trained in personal defense, threat assessment, and risk management, ensuring the safety and well-being of our clients in any environment.

Here are some key roles and responsibilities we offer.

## Executive Protection

We provide discreet, high-level security for executives, dignitaries, celebrities, and other high-profile individuals. Our bodyguards are trained to handle various threats, from physical assault to harassment, ensuring seamless protection without disrupting your daily life.

## Close Protection

Our close protection officers maintain a vigilant, yet low-profile presence, staying within close proximity to the client to respond to any potential threats instantly. Whether in transit, at events, or during daily activities, we provide constant protection and situational awareness.

## Event Security

For high-risk events such as public appearances, corporate functions, or private gatherings, our bodyguards are skilled at managing crowd control and minimizing risks. They work proactively to prevent potential threats while ensuring that the client can engage with confidence.

## Travel Security

Whether traveling domestically or internationally, our bodyguard services ensure safe and secure journeys. We provide route planning, risk assessment, and protection for clients during transit, at hotels, and while moving through high-risk areas.

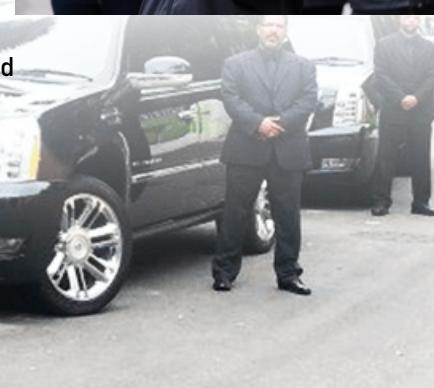

## Risk Assessment and Threat Analysis

Before any engagement, we conduct a thorough risk assessment to understand potential threats and vulnerabilities. This analysis allows us to develop a tailored security plan that minimizes risks and provides comprehensive protection.

## Discreet and Professional

Our bodyguards maintain a professional demeanor, blending into the background when necessary while remaining vigilant. They are trained to handle sensitive situations with confidentiality and discretion, ensuring the client's privacy is respected.

## Crisis Management and Emergency Response

In the event of a security breach or emergency, our bodyguards are trained to respond swiftly and effectively. They are skilled in conflict resolution, evacuation procedures, and handling critical situations to ensure the client's safety at all times.

# Meet The Team

Our Board of Directors is a diverse group of experienced professionals who bring a wealth of knowledge, strategic insight, and leadership to our organization. Committed to upholding the highest standards of governance and corporate responsibility, our directors play a critical role in guiding our company's growth and ensuring we achieve our mission and vision.
